Forecast for Monday 25 Oct 2021

Weather: Sunny intervals and showers or longer spells of rain, sleet and snow expected above 900 metres, some hail possible too. Small chance of an isolated thunderstorm, this most likely along coastal ranges. Drier conditions may spread from the west from late evening.

Chance of cloud free mountain/hill tops above 800m: 70%

Visibility: Excellent outside of showers. Poor in low cloud down to 600 metres in showers or longer spells of rain or snow, this most extensive across western ranges and where it may be linger for a while.

Met Office Aberdeen Meteorologist's View

Gales expected on the summits will make for slow progress and wind chill. Risk of icy surfaces on the highest tops.

Forecast for Tuesday 26 Oct 2021

Weather: After a dry start rain will soon spread from the west. Rain will become persistent and heavy across Wester Ross, Skye and Lochaber, but North Highland especially inland will see some drier interludes. Some drenching developing in the southwest. Rain becoming more widespread after dark.

Maximum wind: Widespread upland southwesterly gales, with gusts 60 to 70 mph on the higher tops

Chance of cloud free mountain/hill tops above 800m: 30%, best chance in the northeast of the area

Visibility: Good in the more sheltered northeast. Otherwise poor in widespread low cloud down to 600 metres, some breaks across Easter Ross and parts of eastern Sutherland.

Temperature: **Glens:** Plus 6 rising to 14 Celsius
At 800m: Plus 4 rising to 9 Celsius
Freezing level: Above summits
